TO-DAY AND TO-MORROW. A rose-bud blossomed in my bower, A bird sang in my garden; The rose-bud was its farest flower, The bird its gentlest warden. And a child behind the linden tree Sang, "Think no more of sorrow; But let us smile and sing to-day,

For we must weep to-morrow. I asked the bird, "O didst thou hear The song that she would sing thee? And can it be that thou shouldst fear What the next morn would bring thee? He answered with triumphant strain, Saying, "I know not sorrow; But I must sing my best to-day, For I may die to morrow!"

I asked the rose, "O tell me, sweet, In thy first beauty's dawning, Thou canst not fear, from this retreat, The coming of the morning?" She flung ber fragrant leaves apart, The lovelier for the sorrow, Saying, "Yet I must bloom to-day, For I may droop to-morrow."

I said, "The bloom upon my cheek Is fleeting as the roses; My voice no more shall sing or speak, When dust in dust reposes; And from these soulless monitors One lesson I may borrow-That we should smile and sing to-day, For we may weep to-morrow.

#### WHY DO CHILDREN DIE?

The reason why children die, says Hall's Journal of Health, is because they are not taken care of. From the day of birth they are stuffed with food, choked with physic, suffocated in hot rooms, steamed in bedelothes. So much for in doors. When permitted to breathe a breath of pure air once a week in summer, and once or twice during the colder winter months, only the nose is permitted to peer into daylight. A little later they are P. SMITII, Esq., in whose hands we have placed our sent out with no clothes at all, as to the parts of Notes and Accounts for collection, and settle without the body which most need protection. Bare legs, bare arms, bare necks, girted middle-most, with an inverted umbrella to collect the air and chill on the other parts of the body. A stout, strong man goes out on a cold day with gloves and overcoat day a child of three years old, an infant in flesh to the knees, neck bare; an exposure which would dealt with as the law directs. disable the nurse, kill the mother in a fortnight, and make the father an invalid for weeks. And why? To harden them to a mode of dress which they are never expected to practice. To accustom them to exposure which, a dozen years later would be considered downright foolery. To rear children thus for the slaughter pen, and then lay it to the Lord, is too bad. We don't think the Almighty has any hand in it. And to draw comfort from one of the finest and largest Stocks of Goods ever the presumption that He has an agency in the death of a child, in the manner of the quoted artiele, is a presumption and a profanation.

AN ENGLISH VIEW OF THE IMPENDING CRISIS. -An English editor enlightens his readers upon the subject of American affairs in the following

The boastful Republic so much vaunted by vainglorious Yankee seems to be on the brink of a precipice, from which retreat will be disgrace and advance destruction. The wisest of American statesmen-Bonner, the Smith brothers, Aaron and others-are wrangling in the House of Parliament in the Columbia District, over a little volume called the "Impending Crisis," written by an octoroon named Helfer, in which the author proves that, unless the States South of the State of New Orleans agree to abolish negro slavery, the North will supply them with no more shoe-pegs, and utter financial ruin will be the consequence .-The members of Parliament who quarrel over this singular book, betray all the American characteristics in their savage abuse of each other, and Charles Summer, one of their number, was recently | tion, Linen, Barege and Cotton Dusters. fired upon by a man named Hooks, and just before away a heavy rifle, which he had previously managed to carry in a pocket made expressly for it.

Though we have no particular faith in the stability of what the Americans call their republican institutions, we are sorry to see our cousins working their own ruin with the edge sword of political incompatibility. As free-born Englishmen, we are bound to sympathize with the so-called Abolitionists of the Northern States of Georgia, Nashville, Harper's Virginia, etc., in their efforts to free the negroes from bondage. Some of the greatest men now living in America are blacksthe famous James Brown was a negro, therefore the Governor of Harper's Ferry hung him. Horace Greely, the famous journalist, is a negro; their great sensation preacher, Henry Ward Beecher, is said to be a quadroon Yet despite such evidences of the African's natural equality with the whites in intellect as well as in everything else, the Southern members of Parliament, led on by a Mr Sippi, are threatening to dissolve the American Union if they are not allowed to hold their slaves in New York.

A SENSIBLE YOUNG LADY .- Said a young lady, who was fashionably educated at the boardingschool, and indulged in idleness at home, so that there was neither strength nor elasticity in her frame, "I used to be so feeble that I could not even raise a broom, and the least physical exertion would make me ill for a week. One sweeping day I went bravely to work, cleaning thoroughly the parlors, three chambers, the front stairs and hall, after which I lay down and rested until noon, when I arose and eat a heartier meal than for a mulatto boy named SOLOMON. He is near six many a day. Since that time I have occupied feet high, about thirty years old, tolerably bright, rather some portion of every day in active domestic labor, slim, and weighs about 175 pounds. He has a down ever offered in this market, consisting in part as foland not only are all my friends congratulating me upon my improved appearance, but in my whole upon my improved appearance, but in my whole upon the end of it. I think he is large about Management of the forefinger of his lows: being-mind, body and spirit-do experience a Rocky River, in the lower end of Cabarrus county, stranger. Young ladies, try my Catholicon."

THE ISRALITES AND ROMANISTS IN CONFLICT. | me, or mis app. I can get him. -Dr. Lilienthal, Rabi of the Broadway Synagogue, at Cincinati, has addressed a letter to Archbishop Purcell, stating that absolution had been refused by some of the priests under his charge to Cathohe servant girls living in Jewish famalies; after some entreaties the right was performed, but under the condition that they should leave these families. Dr. Lilienthal considers this act an insult to our American constitutions, and, if repeated, a league will be formed by the Hebrew merchants of that city, for the purpose of discharging at once all the thousands of Catholic workmen at present engaged by their large merchantile houses. He urges the bishop to use his influence to prevent such a calamity.

Mrs Partington came up to town to select a guardian for her precious Ike, and remarked as

"How the world has turned about to be sure! tories breathing the impure execuations of coalsmoke that are so dillitory to my health. Instead wane of the honeymoon. 'Tis true of the singing of birds, the humble-busses almost deprive me of conscientiousness. Dear me!-They say that the mortal turpentine of this city is prize in a lottery. frightful; but it isn't any use to anticipate trouble beforehand; he may escape all harmonious influencs that would have a tendency to hurt him; and, as the minister of our parish said, with judicial training he may become a useful member of society; though training is bad generally, and apt to make the young run to feathers, like cropple crowned hens. But he has genius (look at him)it comes natural to him, like the meals, and every day it is endeveloping itself more and more."

THE WHITE MAN'S FLY.-Judge Simpson, of Indiana, furnishes the Vincennes Gazette with this scrap of history:

In the year 1775, Minard Sturgess, grandfather of Prof. Sturgess, of Hanover College, emigrated to this country, bringing with him the first hive of bees ever seen in Wabash Valley. The Indians, who had never seen any before, after being stung a few times, called them the white man's fly, while the French settlers became very much alarmed for fear the bees would injure the fruit by sucking the blossoms. It is a fact that the honey bee is never to be found in advance of civilization.

# The Eureka Family Shuttle Sewing Machines.

J. B. F. BOONE, Agent at Charlotte. For Family use, the Eureka Machine possesses the following desirable qualities: 1. It is strongly built, runs lightly, and its movements are simple and easily understood. 2. It works with two threads, using a shuttle, and makes the Lock-Stitch, which is approved for all kinds of work, and for many varieties is the only admissable stitch. 3. While it will sew the tightest possible seam in heavy fabrics, it is susceptible of the most delicate adjustment for use upon light and fragile material; hence it is peculiarly fitted to perform the almost endless variety of work which comes within the range of family sewing. 4. In addition to the admitted advantages peculiar to Shuttle Machines, it is so constructed that it can be run at a very high rate of speed without damage. 5. It uses any kind of thread, making a uniform stitch, and presenting the same general appearance on both sides of the material sewed.

Opinions of the Press .-- The ease with which it is worked, the little trouble in keeping it in running order -no disturbance of a bolt or screw necessary-explains the secret of its universal popularity .- N. Y. Day Book. The simplicity of these machines make them exceedingly desirable for family use .- Ladies' Visitor. It ranks high in the market, and is preferred over all

Thousands are daily speaking in the praise of DR. EATON'S INFANTILE CORDIAL: and why? because it never fails to afford instantaneous relief when given in time. It acts as if by magic, and one trial alone will convince you that what we say is

NO PAREGORIC OR OPIATE of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening its sensibilities. For this reason it commends itself as the only reliable preparation now known for Children Teething, Diarrhoea, Dysentery, Griping in the Bowels, Acid of the Stomach, Wind, Cold in the Head, and Croup, also, for softening the gums, reducing inflamation, regulating the Bowels, and relieving pain, it has no equal -being an anti-spasmodic, it is used with unfailing success in all cases of Convulsion or other Fits. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which all other remedies for infantile complaints are composed, take none but Dr. Eaton's Infantile Cordial, this you can rely upon. It is perfectly harmless, and cannot injure the

Healthy human blood being ANALYZED, always presents us with the same essential elements, and gives of course the true standard. Analyze the Blood of a person suffering from Consumption, Liver complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies in the red globules of Blood. Supply these deficiencies and you are made well. The Blood Food is founded upon this Theory-hence its astonishing success. There are

FIVE PREPARATIONS adapted to the deficiencies of the Blood in different diseases. For Coughs, Colds, Bronchitis, or any affection whatever of the Throat or Lungs, inducing Consumption, use No. 1, which is also the No. for Depression of Spirits, Loss of Appetite, and for all Chronic Complaints arising from over-use, general debility and nervous prostration. No. 2, for Liver Complaints. No. 3, for Dyspepsia. Being already prepared for absorption it is taken by drops and carried immediately into the circulation, so that what you gain you retain. The No. 4 is for Female Irregularities, Hysteria, Weaknesses, &c. See special directions for this. For Salt Rheum, Eruptions, Scrofulous, Kidney, and Bladder complaints, take No. 5. In all cases the directions must be strictly followed. Price of the Biood Food \$1 per bottle. Sold by Sold by CHURCH & DUPONT, Druggists, No. 409

WOULD respectfully announce to the public that he continues to carry on business at the store on the West Corner of Public Square, where he keeps constantly on hand the largest assortment of Stoves ever offered in North Carolina; among which will be found the celebrated Iron Witch Cooking Stone,

which has gained such a famous reputation in the Southern country for the last eighteen months. This Stove he warrants superior to any cooking stove now in use. It is simple in its arrangements, consumes less fuel, and does more work in a given time than any other Stave in use. He has all kinds of Parlor and Box Stoves;

and keeps constantly an extensive and varied Stock of Tin, Sheet-Iron, Japan, and Britannia Ware, Brass Kettles, Cast Iron Bedsteads, Cast Iron Ware, Hat Racks, Cradles, &c.,

all of which will be sold. Wholesale and Retail, cheaper than has ever been before offered in this vicinity. He would return his thanks to his friends and customers for the very liberal patronage they have bestowed upon him, and hopes to merit a continuance of the
